LOT 3 - CATTLE

M	F	O	T
1	0	0	1

Name/tag: Africa 3y 11m
Microchip: 991001000564149
Bloodline: Ankole
Gender: Male
Age: 3 years and 11 months
Measurements:
Age at measurement:
3 years and 9 months
Length: L 33.5 R 34
Base: L 16.25 R 16
Tip to tip: 41
SCI: 99.75
Dam: Leading Lady / NANK 10
- 103
Sire: ANK 10-119

Other info:
Africa, a stunning young muscular Stud Ankole bull (Ankole Stud Reg Nr 5510309965) with massive breeding potential. At under 4 years of age this bull is already a valuable combination of curve bending horn length, striking colour and masculine characteristics. Africa is correct in structure with good conformation and a tidy underline with noticeable musculature on his hind section. As a top son of his magnificent dam, Leading Lady, an Ankole cow who ticks all the necessary boxes, Africa would complement any stud breeding program as he has done in Lumarie's stud. Semen retained for own use. Ankole cattle's popularity is due to multipurpose and dynamic breed in ecotourism, unique beef characteristics, the array of uses of horn products, mottled coats and the fast growing interest for the labola market to name a few.

Age: 9 years and 8 months

Measurements:
Age at measurement:
9 years and 5 months

Length: L 62.125 R 64.5

Base: L 11 R 11.25

Tip to tip: 34

SCI: 148.875

Other info:

Rolex 64 4/8", a superb kudu breeding bull! Impressive tip-to-tip of 34". Rolex resembles quality! This is the specimen kudu bull every breeder and hunter envy. Ideal to enhance your kudu breeding to the next level. Estimated age. Good news - Rolex is well-acquainted in a boma situation and used to feeding. Translocation adaptability should therefore be much smoother.

Sire: King 47 1/8" - East
 African

Other info:
 Magnificent Phambili already 50.5". Brits grandson. Still young with soft boss and actively growing. Sought-after curly horns. Could Phambili exceed the other 50"+ Lumarie bulls like Horison 55"+, Serengeti 52" and the young Malan 51"+ ? All these proves the power and pre-potency of the Lumarie buffalo bloodline. Phambili, meaning "going forward", which is exactly what he will do with your breeding. Excellent successful line-breeding. Phambili is the right breeding bull to add to your unrelated buffalo females - the combination that could result in a further breeding explosion!

Phambili 50 4/8"
