Foreword

What Creates the Exceptional Ankole Interest?

Most importantly, **it is because Ankole is simply beautiful!**

Known as the **"Cattle of Kings,"** Ankole immediately captures attention with its magnificent horns, striking appearance and unmistakable presence. The horns are often the first thing people notice - and the first thing they fall in love with.

When people think of Ankole, it is therefore natural to think **"trophies."** That creates **excitement, emotion and desire**. The thrill that exceptional Ankole creates is incredible. Few large live animals generate such an immediate reaction. People want them and once they have one, they want more.

This creates an extraordinary opportunity for breeders.

By combining careful selection with exceptional genetics, we have the opportunity to continuously **improve the beauty, horn quality, structure and overall presence** of the Ankole, creating animals that become increasingly desirable and valuable.

The enormous amount of free publicity that Ankole is receiving is a clear indication of the attention and excitement this breed is generating. Yet the national Ankole population remains very small. **That combination is extremely powerful: growing demand, enormous public interest, and limited numbers.**

It creates a remarkable opportunity for breeders. With demand continuing to grow, we believe the market for outstanding Ankole genetics and breeding stock has tremendous potential for many years to come.

Ankole is also ideally suited to the enormous **eco-tourism market**. And today, you have the opportunity to acquire some of the **finest Ankole genetics in the country**, offered by Lumarie together with exceptional guest sellers who have carefully selected some of their very best animals **that can shape the future of Ankole**.

Have fun, enjoy the excitement and **please, no regrets : don't go home empty-handed**!

Ankole Greetings

Fire Sky Ankole

SIRE: LCM19-003

DAM: 45”+ COCO (LCM19-004)

GRANDSIRE: 52”+ MAXIMUS (NANK10-115)

GRANDDAM: 52 ⅝” KYASHA (A07-042)

Other info: When line breeding works, it produces exceptional animals. Espresso is a full Kyasha-Maximus double combination: her sire LCM19-003 and dam Coco are both by the 52 ⅛” Maximus out of the 52 ⅝” benchmark cow Kyasha. This concentrates the celebrated A26 and A21 fertility families while preserving the traditional mottled character that makes her so distinctive. With a 24”+ trophy and substantial 16 ⅜” bases at under three years, she is going to stand out in any herd! She is a younger full sister to Arabica which sold at over R1m at the National Auction earlier this year. Georgeus Espresso is a compelling female to breed with either proven South African lines or new genetics.

Other info: Gift of God: At 21 months she looks the part. Godiva carries the frame, the horn set and the presence that separate a good Ankole from a great one: clean lines, deep brown colour and a pedigree that speaks for itself. She will be bred to female-sexed semen from Optimus Prime, so the buyer is not simply acquiring a heifer; they are acquiring the start of a line. Elegant, correct, and bred with intent.

SIRE: NANK06-0002

OFFSPRING: MADAM

OFFSPRING: ANGEL

Other info: 50” Cleopatra – a magnificent combination of beauty, elegance and proven breeding excellence! Arguably one of Lumarie’s most beautiful and impressive Ankole cows, Cleopatra is an Ankole of exceptional presence and distinction. Her striking mottled skin, combined with an enormous 50” trophy sweeping gracefully in an almost kudu-like curve, gives her an unmistakable elegance and commanding presence – a true show-stopper in every sense. Cleopatra offers far more than exceptional beauty, also producing several outstanding Ankoles, including Angel, Princess Selene and Madam, amongst others. She is complemented by a good OPU record, an important attribute for breeders looking to multiply superior genetics through embryo production. Adding even greater value and excitement to this exceptional offering, Cleopatra is in calf to the magnificent 52 ⅜” Pedigree. Cleopatra measured 50 ⅝” at her best on 20 April 2026. Cleopatra is an Ankole cow for the discerning Ankole breeder and true connoisseur – someone who appreciates exceptional quality and breathtaking beauty. A 50” masterpiece. A true Queen of the Ankole breed.

DAM: 48 ⅜” BOTSE (NANK09-006)

Other info: 50 ⅜” EMPEROR. A Genetic Powerhouse. A Proven Pedigree. A Bull Built for Results. Measured on 3 June 2026 at 7y 3m, Emperor reached an official measurement of an exceptional 50 ⅜”. Emperor represents the complete package — an imposing Ankole bull combining tremendous scale, exceptional masculinity, a powerful, well-muscled carcass and an outstanding trophy. He possesses an excellent sheath and testicles, tremendous horn bases and an exceptional trophy that reached 50 ⅜”. A formidable pedigree, combining two of Lumarie’s most successful breeding lines: Sire Mr President, Dam 48 ⅜” Botse & Granddam 52 ⅜” Kyasha. Full siblings 50 ⅛” Kilimanjaro & 49” Mama Africa. Paternal siblings 65” Mona Lisa, 50 ½” Queen Mary & 50” Valentine. Phenomenal and consistent results, making Emperor far more than simply an impressive individual. He represents a proven genetic package with the potential to influence a breeding programme for generations.

Notes: IMPORTANT DISCLOSURE On 18 August 2026, Emperor unfortunately broke the tips of his horns. Following the break, he measured 48 ⅝”. Remarkably, when measured again on 23 September 2026, he had already regrown to 49 ⅜”. His officially recorded largest measurement remains 50 ⅜”, measured on 3 June 2026. The loss of his horn tips does not alter his pedigree, genetics or breeding potential. Emperor remains the same genetically outstanding bull that recorded 50 ⅜” and specially watch him work his way back beyond the 50” mark will be something to watch.

Notes: THE OPPORTUNITY In serious Ankole breeding, true value is ultimately measured not only by appearance, but by genetics and results. For the established breeder who understands the value of exceptional bloodlines, or the ambitious breeder looking to build a herd of significance, 50 ⅜” Emperor represents an opportunity to acquire a powerful genetic foundation. The unfortunate loss of his horn tips does not erase what Emperor has already achieved — nor does it diminish the genetic potential he carries. 50 ⅜” EMPEROR - built to influence the next generation!

WE DIDN'T KNOW WHAT TO *Advertise*

We could have shown you an animal. We could have told you about our genetics.
We could have shown you a beautiful photograph and listed everything that makes Kilima Horned Heritage special.

But you're holding an Ankole auction catalogue.
You already know what makes these animals special.

So instead, we'd rather say thank you.

Thank you to the breeders who continue to push the breed forward.
Thank you to the people who share knowledge, genetics and ideas.
Thank you to those who see the potential of Ankole beyond the auction ring.

We are proud to be part of this community. And even more excited about where it is going.

KILIMA HORNED HERITAGE PROGRAM
ANKOLE

From all of us at Kilima, a blessed Christmas to you and your family. Thank you for your support this year. Enjoy a well-earned rest over the festive season, and we look forward to seeing you again in the new year.
